SUMMARY

Results-driven Computer Science graduate and Full Stack Developer with practical experience in MERN stack, Java, Python and modern web technologies. Skilled at building scalable applications, integrating secure payment systems and delivering high-performance solutions. Strong problem solver with a proven record of improving user engagement and system efficiency.

EDUCATION

B.E. in Computer Science and Engineering

Sahyadri College of Engineering and Management

CGPA: 8.00/10

Mangalore

2022 – 2025

Diploma in Electrical and Electronics Engineering

Sahyadri Polytechnic, Thirthahalli

Shimoga

2019 – 2022

EXPERIENCE

MERN Stack Developer Intern

RDL Technologies Pvt Ltd

Mangalore

Feb 2025 – Aug 2025

- Developed and maintained 5+ scalable full-stack applications using MongoDB, Express.js, React.js and Node.js, resulting in a **40% increase** in user engagement through responsive interfaces and optimized REST APIs.
- Designed efficient database schemas and implemented secure authentication, reducing unauthorized access risks by over **90%** and supporting reliable production deployments.
- Applied structured architecture and performance improvements that reduced API response times by approximately **30%** across key modules.

COURSE AND TRAINING

Java Full Stack Development

KodNest Technologies Private Limited

June 2025 – February 2026

SKILLS

Languages: Java, Python, JavaScript, SQL

Web Technologies: HTML5, CSS3

Frameworks: React.js, Redux, Spring Boot, Hibernate, Spring Framework, Django

Tools: Git, GitHub, Docker, Maven, Postman, VS Code, Eclipse

Databases: MySQL, MongoDB, Oracle

Core Concepts: Object-Oriented Programming, Database Management Systems, Data Structures and Algorithms

Soft Skills: Problem Solving, Quick Learning, Adaptability, Time Management

PROJECTS

Digital Art Protection Platform Demo Code

January 2025

- Developed a complete digital art protection platform using AI detection, steganography, IPFS and blockchain. Supported artist registration, machine learning verification, watermarking and secure ownership recording.
- Built a full buyer workflow with wallet connection and secure file downloads using React.js, Flask, Python, Solidity, Hardhat, IPFS and Web3.

SalesSavvy: Modular E-Commerce Platform Live Code

January 2026

- Designed a modular e-commerce platform using Spring Boot, React.js, MySQL and JWT. Implemented role-based access control across five core modules: Authentication, Product, Cart, Order and Payment.
- Integrated Razorpay payment gateway and optimized database queries using Spring Data JPA, delivering smooth performance under high traffic.

MealMate: Full-Stack Food Delivery Platform Live Code

December 2025

- Built a complete food delivery application using Python, Django, SQLite, HTML, CSS and JavaScript with user authentication, menu management, shopping cart and real-time order tracking.
- Integrated Razorpay for secure payments and created an admin dashboard that improved management of orders, menus and users.
