PROJECTS

SalesSavvy: Modular E-Commerce Platform

Demo

January 2026

- Architected a scalable microservices e-commerce platform using Spring Boot, React.js, MySQL, JWT, and RESTful APIs for Authentication, Product, Cart, Order, and Payment modules with secure access control.
- Integrated Razorpay, optimized database queries, and improved frontend responsiveness using Git, resulting in seamless high-traffic performance.

MealMate: Full-Stack Food Delivery Platform

Demo

December 2025

- Built a complete food ordering application with Python, Django, SQLite, HTML, CSS, and JavaScript, including user authentication, menu management, cart functionality, and real-time order tracking.
- Integrated Razorpay payments and developed an admin dashboard for order, menu and user management delivering secure transactions and responsive user experience.

TaskBuddy: Interactive React Task Management Dashboard

Demo

November 2025

- Created a responsive single-page task management app using React.js, JavaScript, HTML, CSS, and LocalStorage with full CRUD operations.
- Implemented React Hooks, reusable components, and real-time progress tracking to boost productivity.

CERTIFICATIONS

- Java and Python Full Stack Development Course Completion - **KodNest Technologies Pvt Ltd** 2026
